CLASSVOICE

Your Mirror for Meaningful Dialogue

How to use Pre-Check

Get feedback on your lesson **before** you teach it.

Try it out: classvoice.net

Our session

1

Why Pre-Check

Planning for student thinking

2

How it works

Seven steps and the four parts of the report

3

Try it now

Run one of your own lessons through Pre-Check

4

Reflect and commit

Talk with a partner and choose one change

Try it out: classvoice.net

Our Why

01

Plan for what students will think about

Planning shifts from “What will I cover?” to “What will students do, notice, explain, or figure out?”

02

Get feedback while changes are still easy

Strengthen the design before class, not after.

03

Connect your lesson to the Engagement Blueprint

See if students will analyze, discuss, and make meaning, not just complete steps.

04

Find one small, high-leverage adjustment

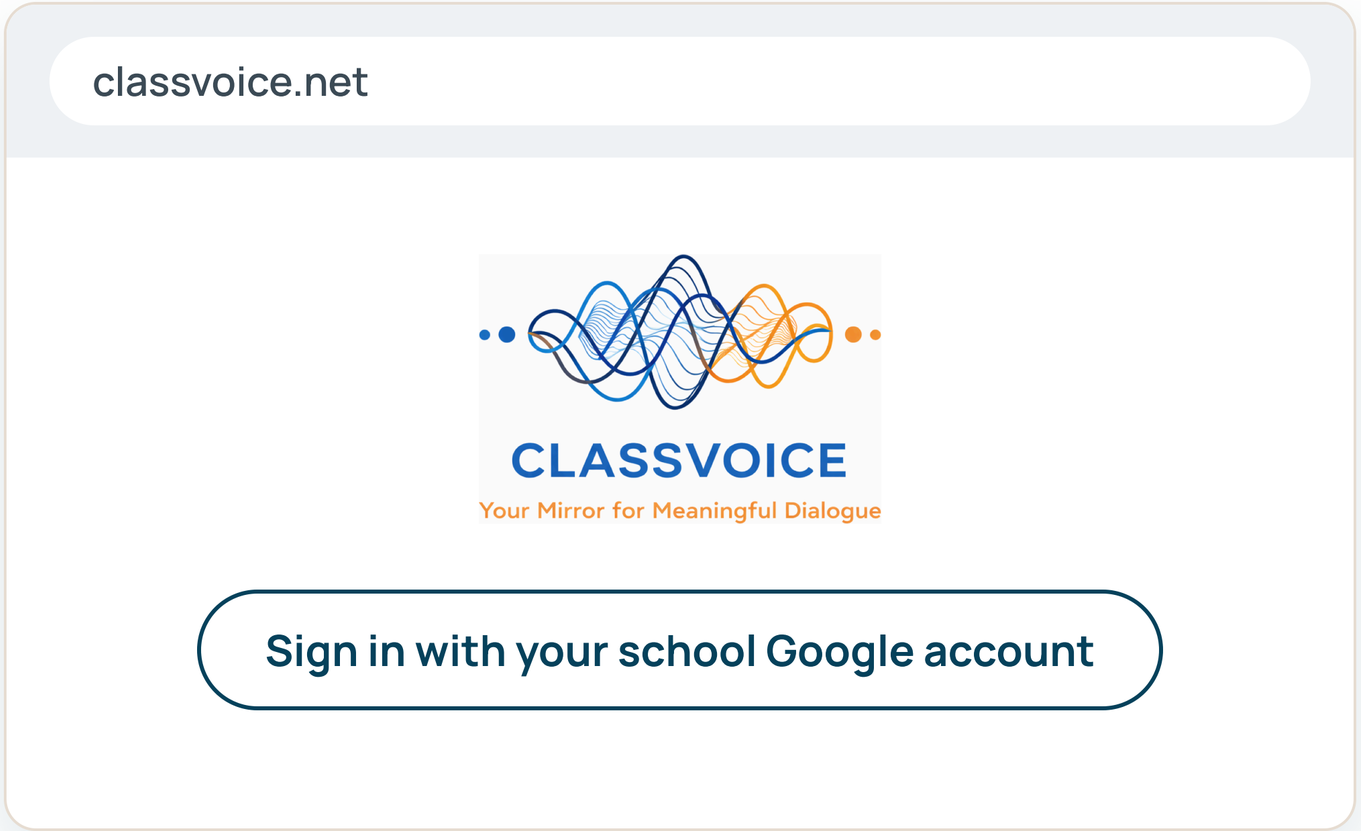

Find one place where students could do more of the thinking.

Try it out: classvoice.net

1

Log in

Go to classvoice.net and sign in with your school Google account.

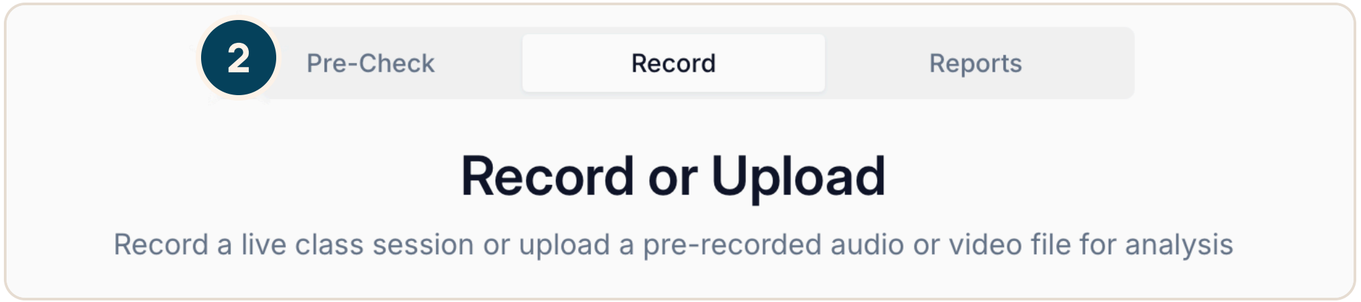

Try it out: classvoice.net

2

Open Pre-Check

Click the **Pre-Check** tab at the top of the page.

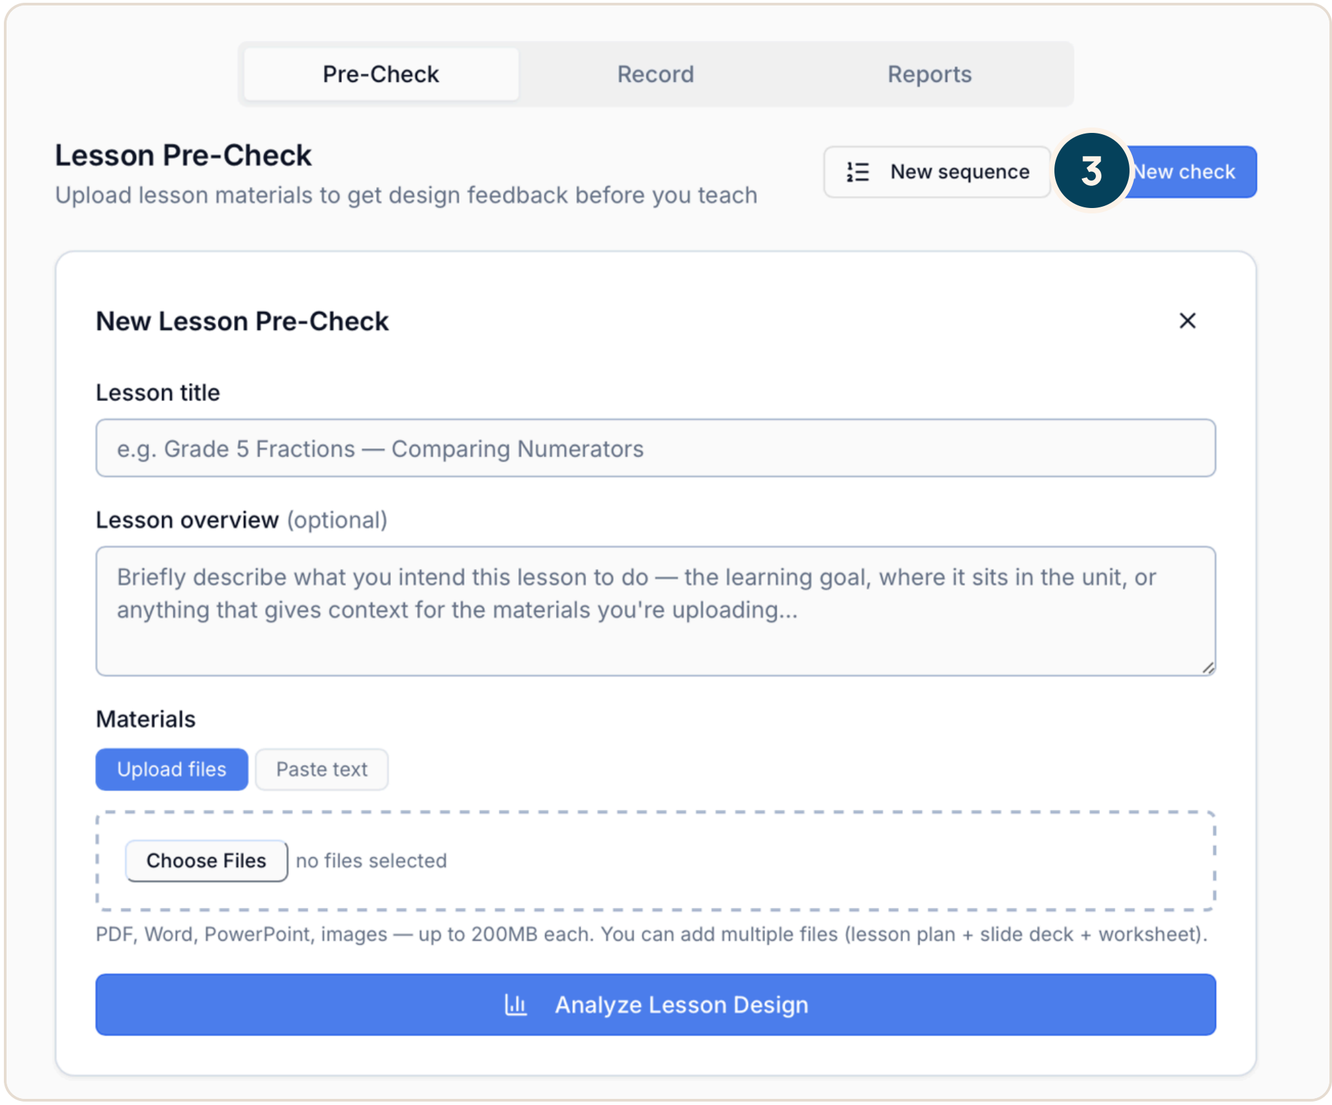

Try it out: classvoice.net

3

Start a new check

Click **+ New check**.

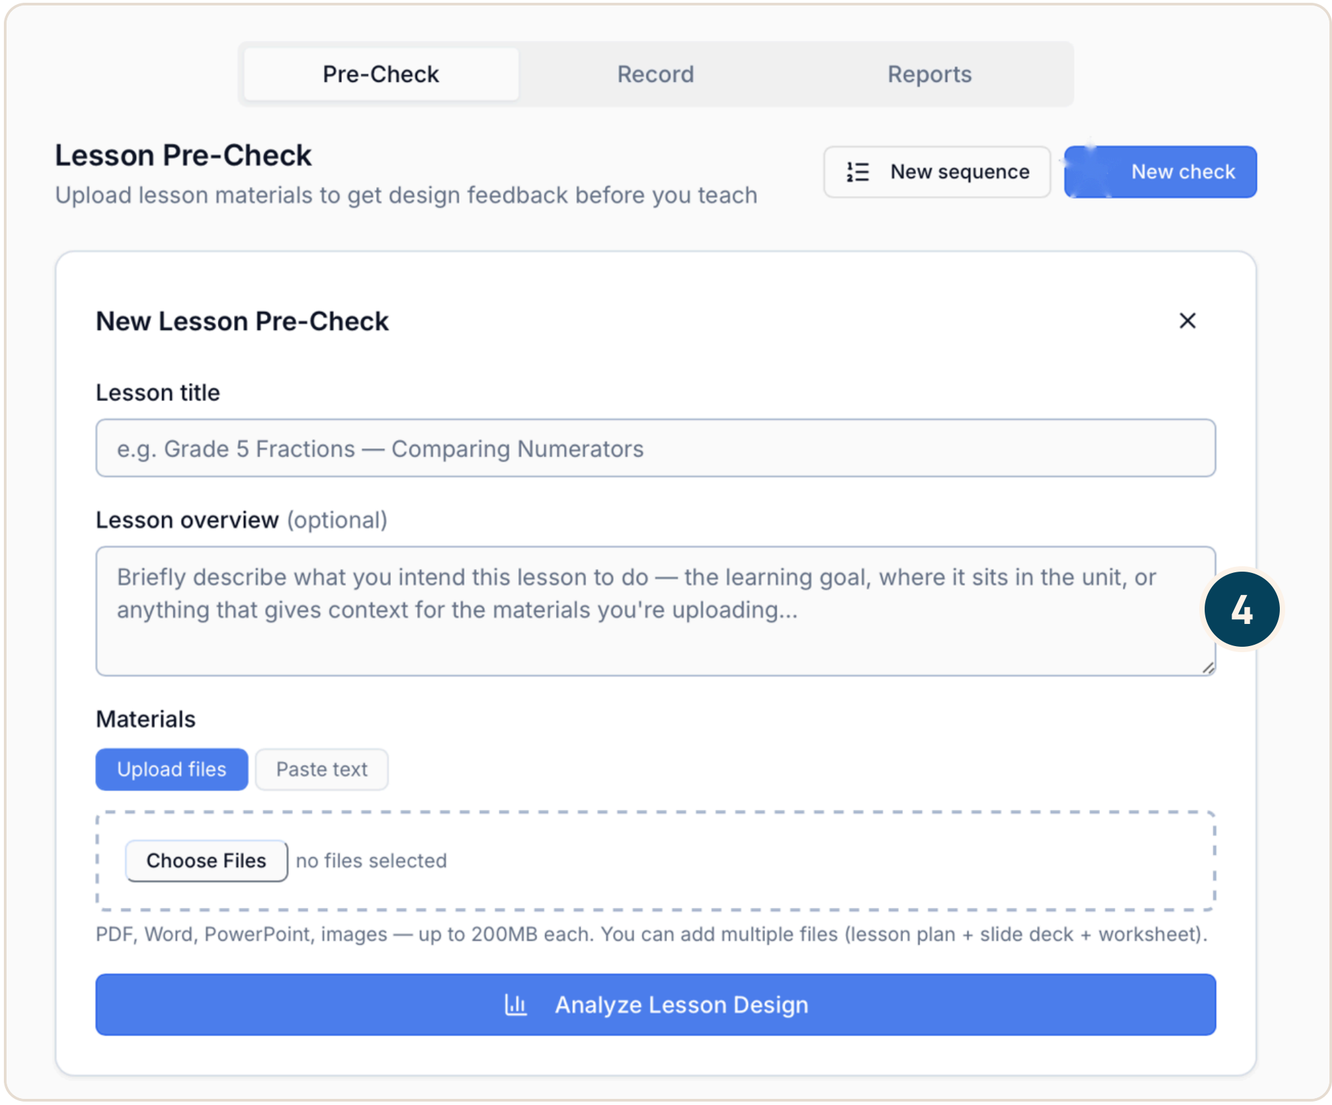

Try it out: classvoice.net

4

Share your lesson

Describe your lesson and/or upload a planning document or image. The more you give, the better feedback you will get!

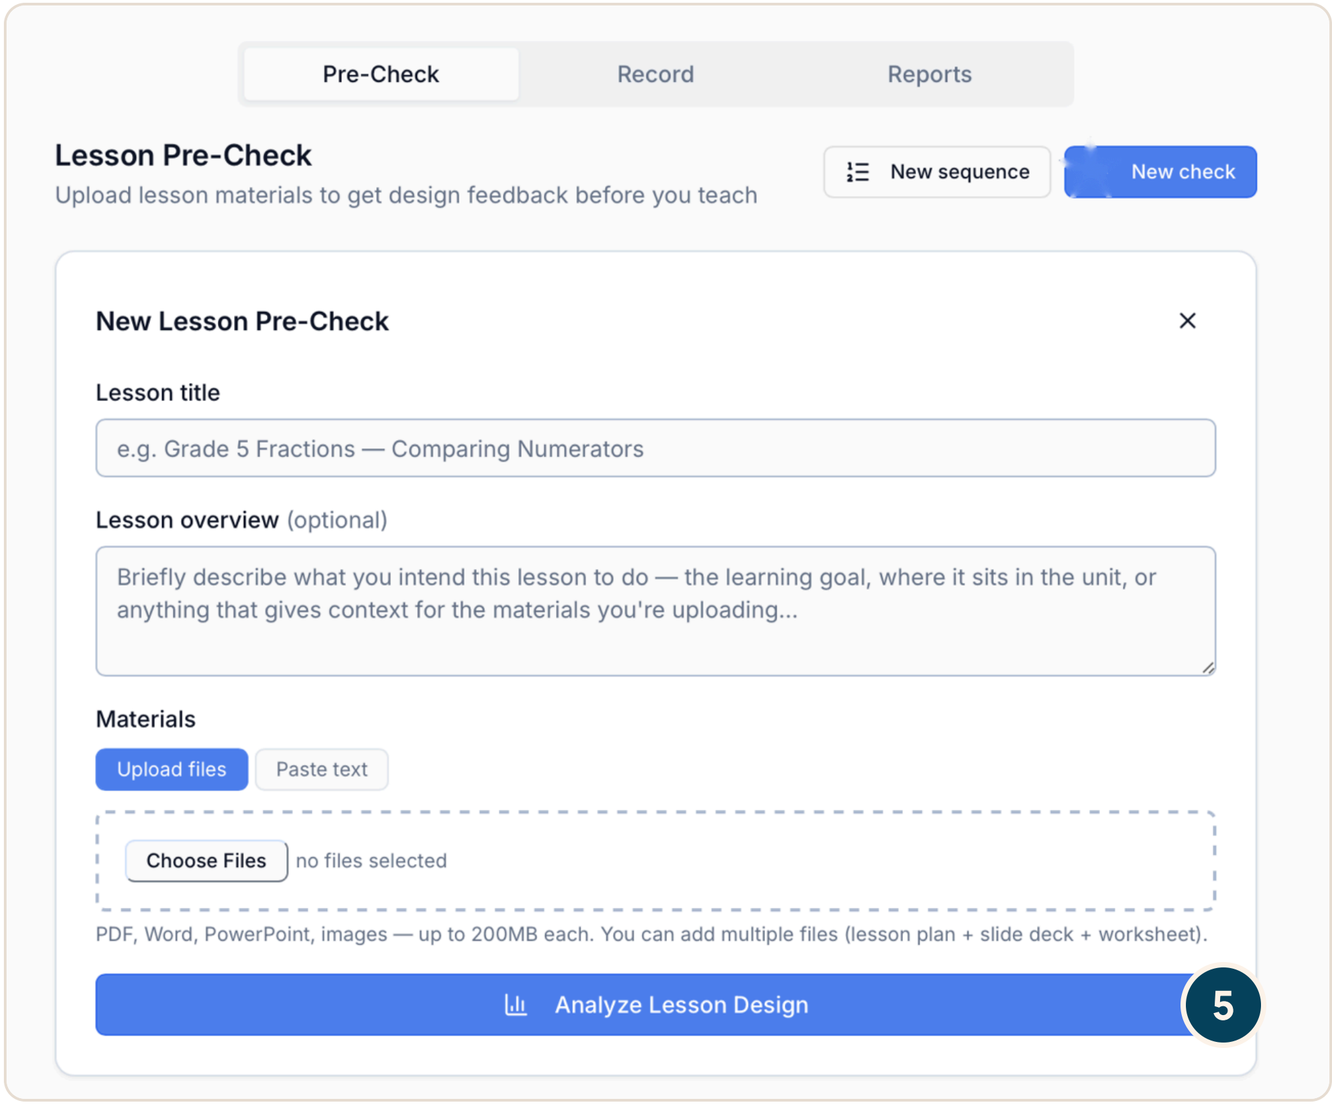

Try it out: classvoice.net

5

Get feedback

Click **Analyze Lesson Design**.

Try it out: classvoice.net

6 Review your report

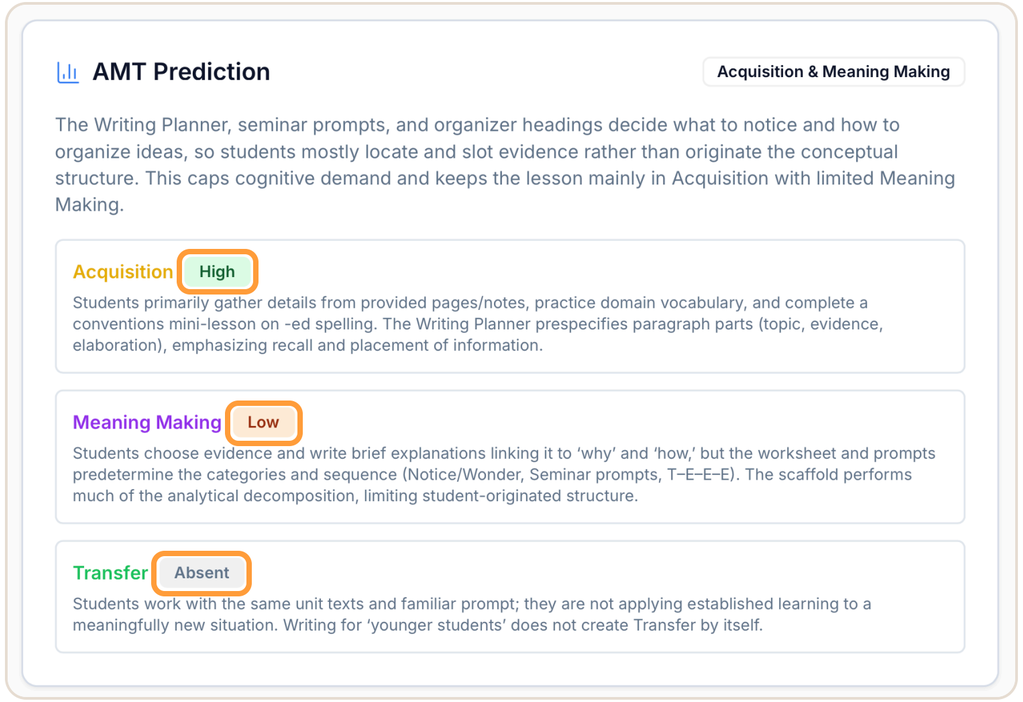

Lesson summary

What Pre-Check thinks the task is.

> Students revisit two unit texts (Ocean Sunlight and The Fantastic Undersea Life of Jacques Cousteau) during a brief gallery walk to note information about the ocean and scientists. They participate in a whole-class Socratic Seminar on “Why is the ocean important?” and complete a self-assessment of participation. Students then use a Writing Planner template to plan two paragraphs (why and how scientists explore the sea) and complete a short conventions mini-lesson on forming the simple past with -ed.

AMT prediction

How strongly the lesson shows Acquisition, Meaning Making, and Transfer.

6 Review your report

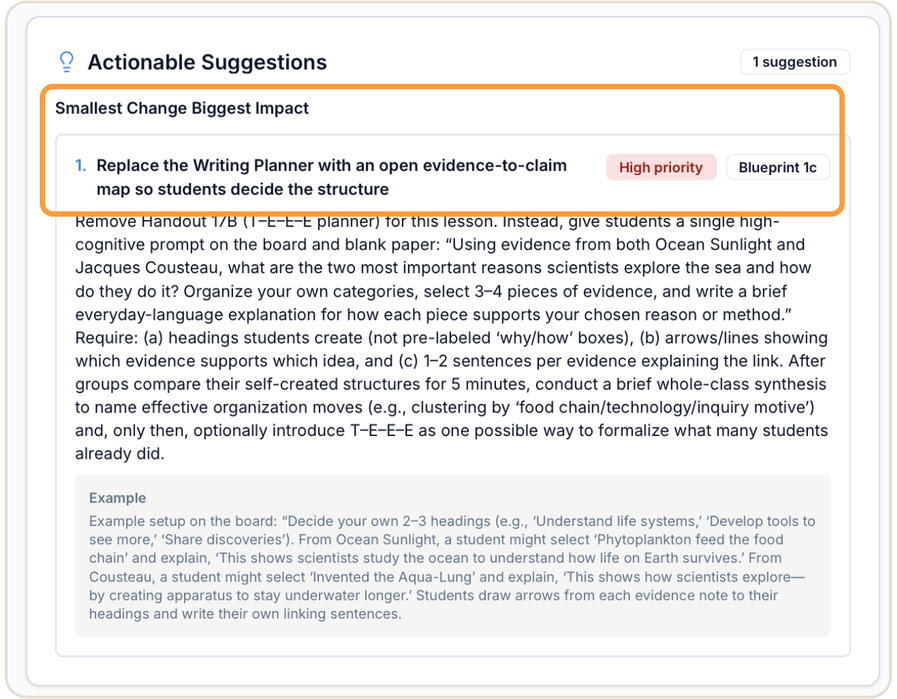

Engagement Blueprint

Each element is rated Present, Partial, or Absent.

Actionable suggestion

The smallest change with the biggest impact.

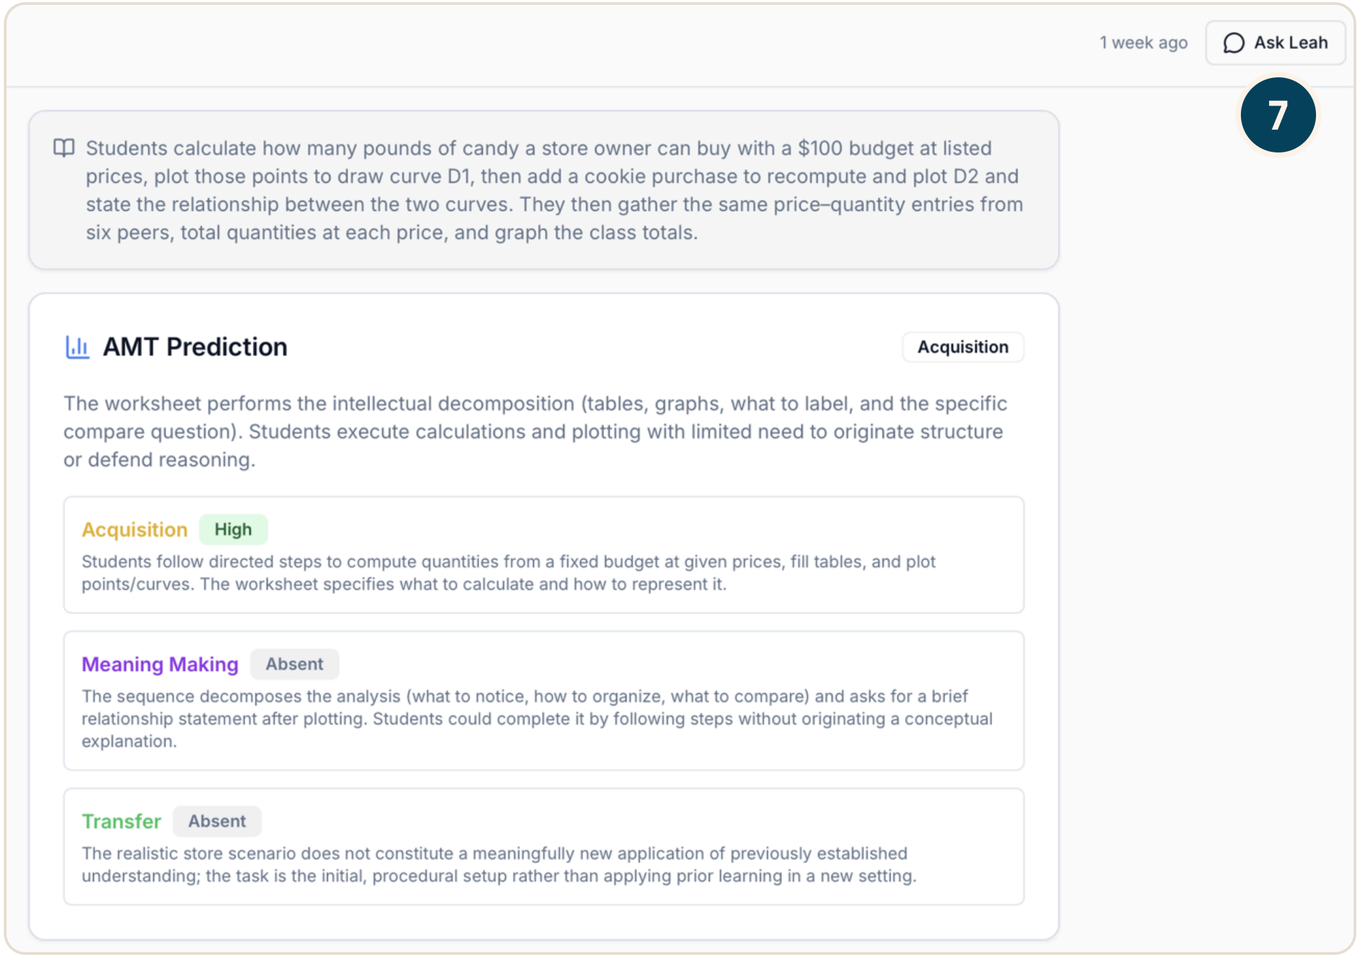

Try it out: classvoice.net

7

Ask follow-up questions

Once Pre-Check gives you feedback, ask clarifying questions with the **Ask Leah** button.

Try it out: classvoice.net

TRY IT NOW

Run one of your own lessons through Pre-Check

Try it out: classvoice.net

Try it now

1

Choose a lesson

Pick a lesson you will teach in the next two weeks.

About 2 minutes

2

Run a Pre-Check

Describe it and upload your plan, slides, or worksheet.

About 10 minutes

3

Read your report

Look at all four parts. Note the actionable suggestion.

About 5 minutes

4

Talk with a partner

Use the reflection questions on the next slide.

About 10 minutes

Try it out: classvoice.net

Reflect with a partner

Lesson summary

Is that the task you intended? If not, what would make it clearer?

AMT prediction

Where does your lesson land? Is that where you want it to be?

Engagement Blueprint

Which element is strongest? Which is Partial or Absent?

Actionable suggestion

What is the change? What would it look like in your classroom?

Try it out: classvoice.net

One change I will make

In my lesson on _____, I will _____ so that students _____.

I will try it on _____.

Share your change with your partner. Run the revised lesson through Pre-Check again to see what moved.
