CLASSVOICE
Your Mirror for Meaningful Dialogue

LearningWorks

Want feedback on your lessons before you teach them?

Try **Pre-Check** in ClassVoice.

Our Why

01

Plan for what students will think about

Planning shifts from “What will I cover?” to “What will students do, notice, explain, or figure out?”

02

Get feedback while changes are still easy

Strengthen the design before class, not after.

03

Connect your lesson to the Engagement Blueprint

See if students will analyze, discuss, and make meaning, not just complete steps.

04

Find one small, high-leverage adjustment

Find one place where students could do more of the thinking.
