CLASSVOICE
Your Mirror for Meaningful Dialogue

LearningWorks

Want to hear what your classroom conversation really sounds like?

Try **Record** in ClassVoice.

Private to you. Your recordings and reports are only for your eyes. They are not shared, no one else can see them, and no one else has access to them.

Our Why

01

See who is carrying the thinking

Talk ratio, student turns, and a participation map show how much of the lesson belonged to students.

02

Make student reasoning visible

See how often students explained, hypothesized, or built on each other, not just whether they answered.

03

Connect your teaching to the Engagement Blueprint

Ratings for Cognitive Engagement, Student Voice, Collaboration, Agency, and Learning Culture.

04

Find one small, high-leverage next move

Every report names what is working, one growth opportunity, and one strategy to try next.
